As a versatile UI designer, UI/UX developer, and front-end developer, I have expertise in various projects across different domains. I have proficiency in design tools such as Figma, Adobe Photoshop, and Illustrator, and skills in HTML, CSS, and JavaScript. I have attached a detailed project list below.

PROJECT PROFILES

JAN 2022 – PRESENT

UI / UX DEVELOPER, SENIOR EXECUTIVE.

INFOCEPTS TECHNOLOGIES PVT. LTD

- Collaborated with designers and back-end developers to build and maintain the company's website
- Implemented responsive designs using HTML, CSS, and JavaScript and utilized various front-end frameworks such as Bootstrap
- Conducted cross-browser testing and resolved compatibility issues to ensure a consistent experience across different devices and browsers
- Built reusable components and integrated them with the company's design system resulting in faster development times and consistent branding
- Optimized web page load times and improved user experience by minimizing unnecessary requests and compressing images
- Developed a Typography Scale System to facilitate quick development of pages requiring hard coding
- Built various pages on the company's website- **www.infocepts.com**, including Our Capabilities, All Success Stories, What We Do, Career, Executive Team, White Papers & Reports, Glossary, Contact Us, and LCA Posting pages, as well as structured 12 Solution pages.
- Assisted team members in updating blog titles, blog images, newsroom titles and newsroom images.
- Conducted test of the website on device simulators, actual browsers like Mozilla, Chrome and Edge, and actual devices ranging from mobile phones to small screens and Smart TVs to test the website on large screens.

MAY 2021 - JAN 2022

UI / UX DEVELOPER.

JEWEL PRO TECH PVT. LTD.

- Collaborated with designers and back-end developers to build and maintain the company's website, **www.diamondicq.com**.
- Redesigned an old website into a new one.
- Supported the QA team to test the website based on UI design approved by stakeholders.
- Created new pages for the current website, including Ring Builder, Education, My Account, Contact Us, Home, About Us, Sell Your Product, Jewellery, and Pre-Owned Jewellery, aligned with the website's theme.
- Redesigned the page flow for the product selling page.
- Developed wireframes and prototypes for all the above pages.
- Remade the Education and About Us pages using Magento Page Builder, using HTML and CSS.

MAR 2017 - MAY 2021

CO-FOUNDER.

ANGEL CONVENT SCHOOL.

- Redesigned the page flow for the product selling page.
- Created user-friendly interfaces using HTML, CSS, and responsive design for accessibility on multiple devices.
- Attempted to create a learning platform using WordPress to enhance critical thinking, language understanding, and mathematical skills.
- Created interactive interfaces for educational tools using HTML, CSS, and responsive design.
- Refined front-end development skills while contributing to the education sector.
- Made prototypes and wireframes for the beta version of the school's website.
- Created UI and graphic elements for various small businesses.
- Developed a local website for managing all the study material.
- Planned academic work and managed a team of 20 staff for academic and co-curricular activities.
- Organized and managed four events with gatherings ranging from 1000 to 3000 people.

MAR 2017 - MAY 2021

GRAPHIC AND UI DESIGNER.

FREELANCING AND REMOTE WORK.

- Design logos, branding materials, and interfaces for mobile and web applications using tools such as Adobe Photoshop, Illustrator, and Figma.
- Develop engaging and effective designs for learning platforms by applying knowledge of the education sector and user experience principles.
- Collaborate with clients and stakeholders to understand their requirements and deliver solutions that meet their needs and exceed their expectations.
- Continuously stay up-to-date with design trends, software updates, and emerging technologies in the graphic and UI design field.
- Manage multiple projects simultaneously, ensuring that they are completed on time and within budget.
- Communicate effectively with clients, team members, and other stakeholders throughout the design process to ensure a smooth workflow and successful project outcomes.

MAR 2017 - MAR 2018

VISUAL AND UI-UX DESIGNER.

THE CLIMBER KNOWLEDGE PVT. LTD.

- Worked simultaneously in both UX and Design domains, conducting research and analysis as part of the UX team, and designing graphical assets such as posters, flyers, logos, and UI screens as part of the Design team.
- Collaborated with cross-functional teams to deliver visually appealing and user-friendly designs for digital and print media, including web and mobile applications, marketing collateral, and event materials.
- Played a key role in creating graphic assets for the Indian Youth Conclave 2016 and 2017, contributing to the success of the event.
- Utilized design tools such as Adobe Creative Suite and Sketch to create high-quality designs and prototypes.
- Provided constructive feedback during design critiques and reviews to ensure the delivery of exceptional design solutions.
- Contributed to the growth and success of the company through effective communication with stakeholders and the delivery of high-quality design work.

MAY 2017 – AUG 2017

GRAPHIC AND UI-UX DESIGNER.

EDIOME

- Designed a new identity system for Ediome's rebranding project.
- Developed a design system and supporting graphics to ensure consistency and coherence across various design assets.
- Assisted the development team in creating web pages for the Ediome website using HTML and CSS.

OCT 2016 – APR 2017

UI-UX DESIGNER.

INFINITY INFOWAY PVT. LTD.

- Redesign the UI of Patel Tour and Travel's mobile application for travel booking.
- Create UI screens and flow for the Travelly application.
- Conduct user research to understand user needs and preferences.
- Utilize design tools such as Figma and Adobe Creative Suite to create visually appealing and intuitive interfaces.
- Redesign existing mobile applications to enhance user experience.
- Develop UI designs for websites and mobile applications.
- Collaborate with frontend developers to implement UI designs and ensure design consistency.
